

# SCIENCE NOTEBOOK

## Activity 2 Where Can You Find Water in the Solar System?

**Before exploring the cards:**

Do you think other planetary bodies have the same water reservoirs as the Earth?

---

---

---

Where do you think most of the water in the solar system is located?

---

---

---

**After exploring the cards:**

How did your predictions compare to the chart results?

---

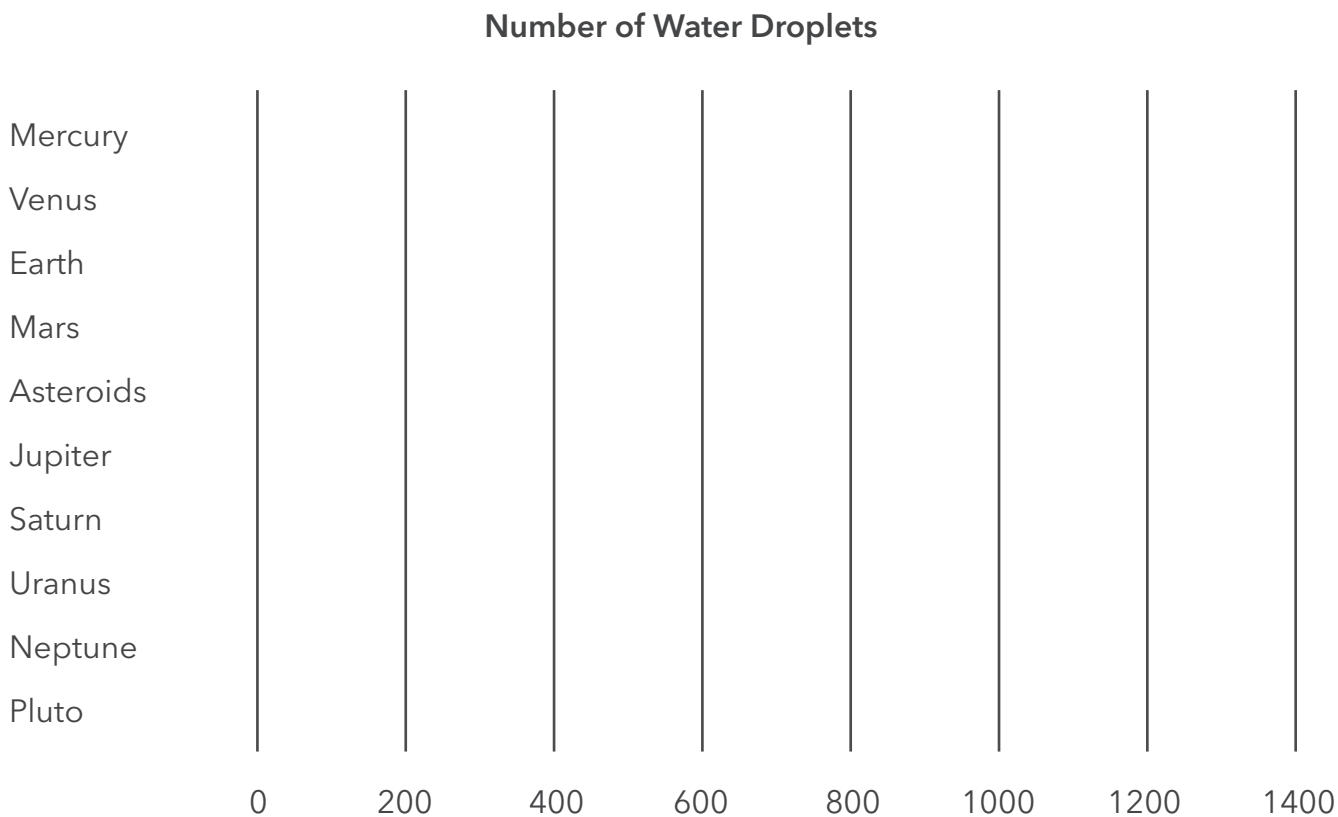

---

---

# SCIENCE NOTEBOOK

## Activity 2 Where Can You Find Water in the Solar System?

After the water in the solar system charts are finished, chart the number of water droplets on the bar graph for each planetary system (the planet and its moons):

What patterns do you see in the charts and the bar graphs?

---

---

---

---
